

Because we want everyone to have a good time and stay safe, we have designed a traffic light system. This is so that you know what to be aware of as you walk around the farm.

Always remember to **wash your hands** after touching the animals, especially **before you eat**.

**Lower  
Risk**

These animals are of low risk. Just make sure you have applied the alcoholic gel to your hands after touching them and before you eat.

**Medium  
Risk**

These animals are of medium risk. Please ensure all children are supervised while touching these animals and that you wash your hands with the alcoholic gel after touching them.

**Higher  
Risk**

These animals are of high risk. Pregnant ladies and those with a low immune system's are advised to avoid contact with animals in this group. Wash hands thoroughly, with soap, after contact.
